

Emerging Technologies: RTI WiC

Myles Elledge, Senior Director

20 October 2016

Gates Foundation Reinvent the Toilet Challenge

Create a waste treatment and toilet system that is ...

1. “Off-grid”. Does not require an external source of electricity, water or sewer
2. A waste treatment system treats all pathogens on-site
3. An affordable system operating on no more than 5 cents per person / per day
4. An aspirational waste treatment & toilet system with appeal for developed and developing countries applications

Building through Partnerships

RTI RTT in India (Phase 2: 2014-16)

Pre-alpha: Actionable user data to inform technology development and understand adoption challenges

Alpha: Controlled performance field testing to understand system operations in realistic conditions, user data to inform design to address adoption questions

Beta: Expanded performance testing and unmonitored use and system operations; actionable user data to inform technology, adoption, platforms for product development

Reinvent the Toilet: Test & Demonstration

RTI International's Integrated Waste Treatment System

Sustainability & Logistics-Basing 4a Concept

Integrated, Waste, Water and Fuel Management Solutions for Base Camps

50-150 Pax

- **Highly Mobile, Easy to Establish**
- **Tailorable, Mission Specific**
- **Robust, Organically Maintainable**
- **QOL Improving Options Available**
- **Small Unit Leaders Trained to Operate a Base (PSG, 1SG)**

PB

150-600 Pax

- **Highly Adaptable, Mobile & Scaleable**
- **Stand Alone & Integrated Capabilities**
- **Organic and Contract Maintainable**
- **Inherent QOL Enhancing Capabilities**
- **Small Unit Leaders Trained to Manage Base Efficiency Efforts & Objectives**

COP

600-1000 Pax

- **Fixed Integrated Systems**
- **Adaptable to Existing Infrastructure & Utilities**
- **Contract Maintained**
- **Optimal QOL is Standard**
- **Established Base Management Infrastructure**

FOB

*Army Equipping Strategies are yet to be determined

Field Testing & Technology Demonstration

- Exploring potential next market segments for 2017 demo
 - School
 - Community
 - Trucking or bus transport hub
 - Factory site
 - Construction site

A Better Toilet

For A Cleaner World

[Home](#) [Reinventing The Toilet](#) [Our Technology](#) [Who We Are](#) [Why We Care](#) [Resources](#) [Updates](#)

More than 2.5 Billion people do not have access to safe and effective sanitation...

Globally 1.5 million children die each year from diarrhea...

Significant innovations in toilet technologies could improve sanitation for the developing world...

Our team is building a better toilet that
