Urban India –Water and Sanitation

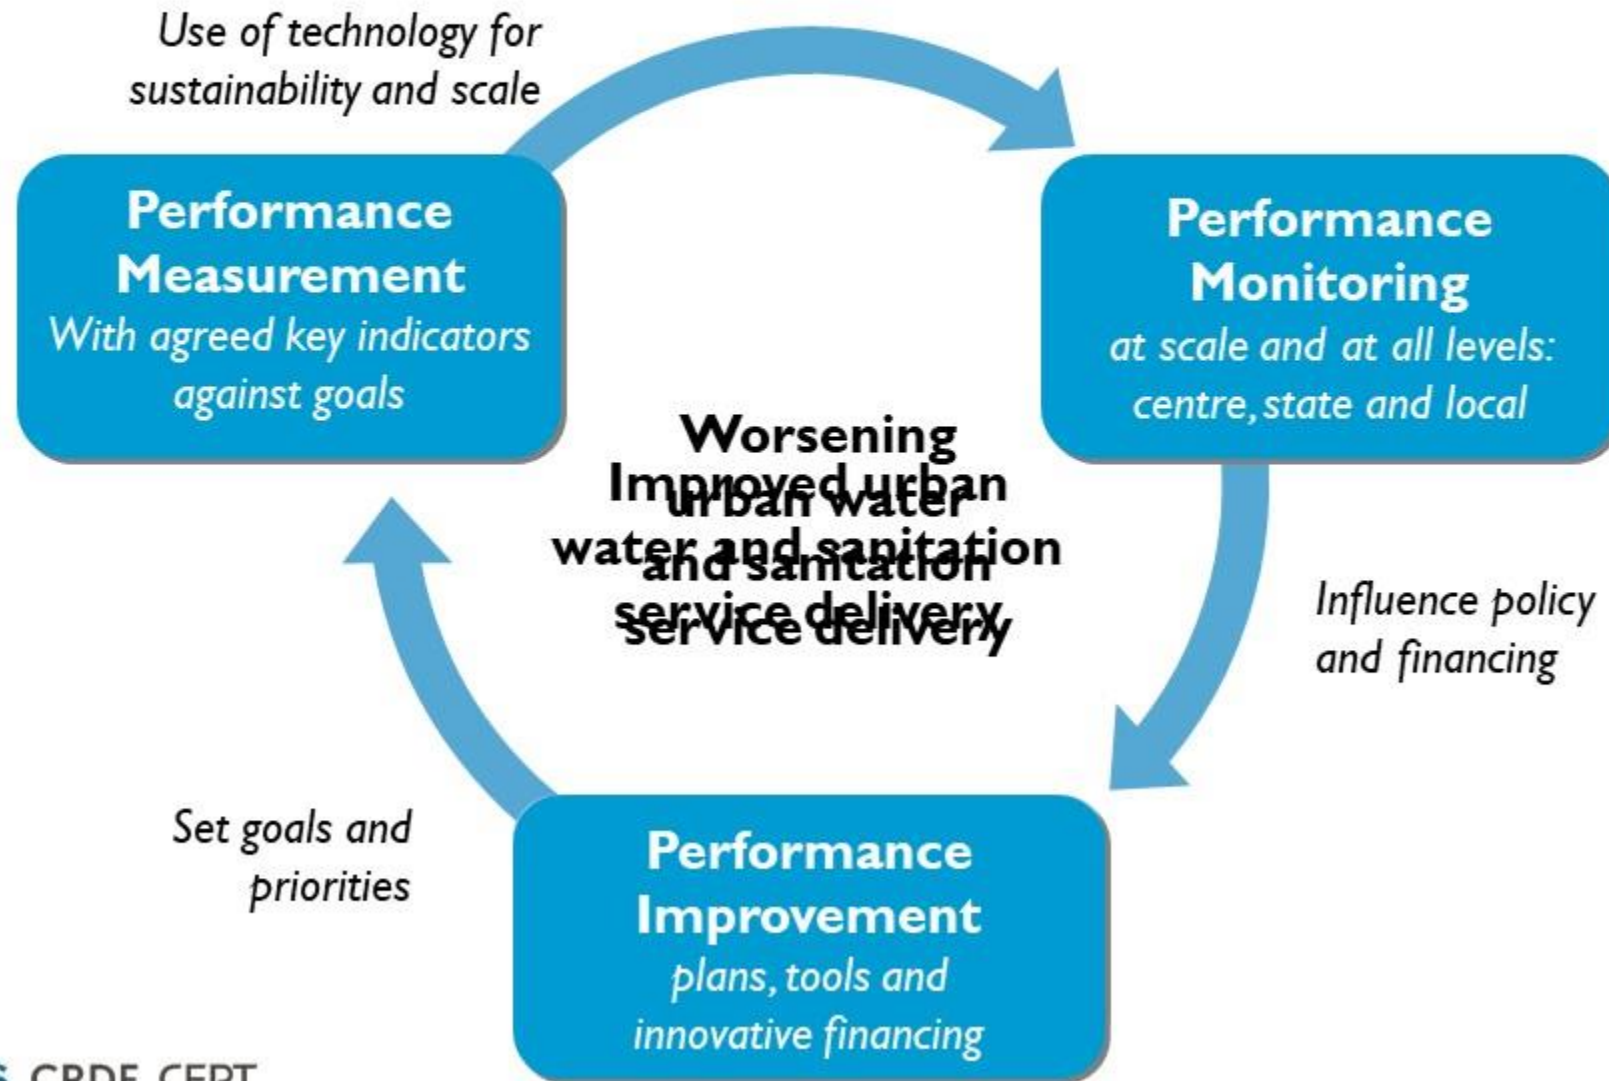

40% of Indians will have no access to drinking water by 2030: NITI Aayog

'Nal se Jal' Is the slogan now

70% of waste water remains untreated – FSSM is urgently needed

PAS Approach – moving to a virtuous cycle

Measure and monitor performance to reward and learn from success and demonstrate results

Improving Accountability of Urban Local Governments

Need for robust information on service delivery performance

What value additions did we intend to bring?

- ✓ No Pilots... operate at Scale to make an impact
- ✓ Work with all levels of Governments – National, State and Local to influence policies and implementation
- ✓ Capacity building of city and state level officials on Benchmarking
- ✓ Develop a system that can be mainstreamed and sustained in the government with its own resources
- ✓ Focus on the 'real context' for developing countries – **slums and equity, onsite sanitation systems, local action indicators**
- ✓ Open data – available for use by all

We have come along way from this ...

... to online data systems

PAS Journey from 2009....going strong

2009 – 416 Cities

68 Million population

- 167 Cities of Gujarat
- 249 Cities of Maharashtra

.....continued for 8 years

2015 – 463 Cities

72.8 Million population

- 168 Cities of Gujarat
- 259 Cities of Maharashtra
- 43 Cities of Chhattisgarh

2016 – 908 Cities

96.5 Million population

- 168 Cities of Gujarat
- 364 Cities of Maharashtra
- 168 Cities of Chhattisgarh
- 69 Cities of Telangana
- 96 Cities of Assam
- 43 Cities of Jharkhand

www.pas.org.in: The largest database on urban water sanitation in India

Various dashboards

Access and Coverage for Gujarat

Highlights the % of households having individual access to services of water supply, waste water and solid waste management

Select State: Gujarat

Select Financial Year: FY 2012-2013

Select Indicator Group: Access and Coverage

Option to view year wise information

Background of Ahmedabad

GENERAL INFORMATION

Class	Municipal Corporation	No. of slum settlements	1,813
District	Ahmedabad	Slum population	1,818,217
Area (sq.km.)	409.2	Slum households	317,239
Total city population	5,100,485	Total annual city capital receipts	15,395,096,000
Total households	1,117,421	Total annual city capital expenditure	13,474,748,000
Density (persons per sq.km.)	15,069.3	Total annual city revenue receipts	17,029,874,000
Total municipal staff	22,363	Total annual city revenue expenditure	9,643,879,000

WATER SUPPLY

Total water produced (MLD)	825.4
Ground water (MLD)	207.4
Surface water (MLD)	618.0
Average daily volume treated (MLD)	717.3
Installed storage capacity (MLD)	779.3
Total water connections (Nos.)	176,339
Water connections in slums (Nos.)	175,464

Supply Days: 30

Overview Report

Overview JSL Report

Overview of the city provides general information across all the sectors

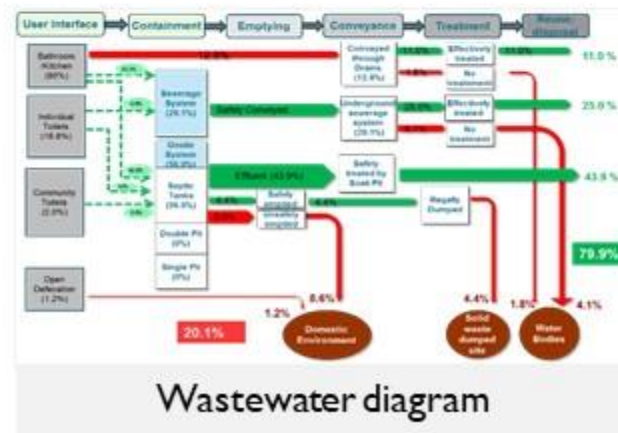

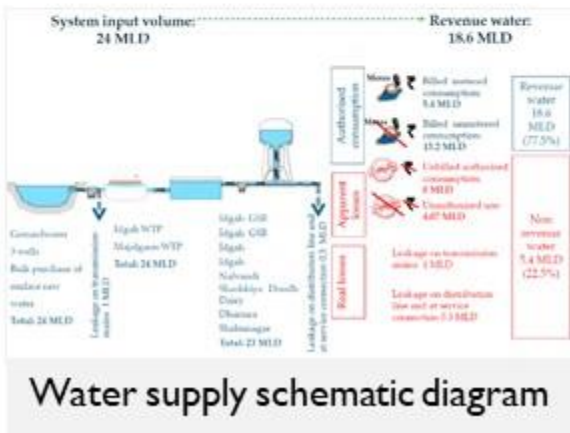

Ahmedabad: Compare your city

Municipal Corporation, cities
Coverage of water supply connections (%)

Ahmedabad	95
Solik	89
Nadiad	84
Gandhinagar	73
Gandhinagar	72
Mahatma	69
Gandhinagar	64

Compare With

Compare Your City helps each city compare itself with another city based on its respective class or state.

Data users for varied purposes

Government agencies – National, State and City

City Level: By 900+ cities across 6 states to submit SLB information in compliance with 14th FC requirements to receive performance grants. To prepare service level improvement plans in more than 30 urban local bodies.

Gujarat: Guidelines for ODF, ODF+; Assess impact of capital investment on service level improvement in sewerage system; State of environment report, 2012.

Maharashtra: State level strategy for making cities ODF, ODF+; Septage management guidelines; Policy guidelines SWM.

Chhattisgarh: Impact assessment of SWM.

Multilateral Financial Institutions

For project identification and selection

Various financial institutions such as ADB have used this information for project identification, selection and formulation.

World Bank – WSP have worked with us on SLB Connect

Regulators

To assess regulatory compliance

CAG -Performance audit of delivery of three basic civic services for selected ULBs in various states.

Researchers, academicians and students

Many academicians and students of planning or technology colleges have used this information for research purpose. More than 20 research reports have been prepared using PAS information in CEPT University itself.

Consultants

Various consulting assignments related to preparation of Vision documents, City Development Plans, City Sanitation Plans. Indian Institute of Technology (IIT) Mumbai has used for city assessments

The Road Ahead....

2018: 900+ cities

Used by 6 states in India
100 Million population

2019- 1000 Cities

Linked with Smart city mission,
Government of India
160 Million population

And journey
continues...

2022- 4500+ Cities

Will be linked with
India urban observatory platform,
Ministry of Housing and Urban
Affairs, Government of India
400+ Million population
